

Professor Nicholas Lintzeris
South East Sydney Local Health District
c/o The Langton Centre
591 South Dowling Street
Surry Hills NSW 2010

10 December 2018

Dear Professor Lintzeris,

**Re: Application No: NCRC03
Developing a clinical data laboratory for methamphetamine use in
NSW: The MAData project**

Thank you for your application for The National Centre for Clinical Research on Emerging Drugs (NCCRED) Capacity Building Funding (October 2018). We appreciate the time and effort you took in applying for this grant.

Your grant application was reviewed by the NCCRED Clinical Research Network Methamphetamine and Emerging Drugs Working Group (WG) on 30 October 2018. This was an independent process, which the NCCRED staff and Board of Directors were not involved in.

The WG noted your response letter to their review, and your revised application sent on the 16th November 2018.

As chair of the WG I am pleased to inform you that your application for an NCCRED seed funding grant was successful. The WG tabled their recommendations to The NCCRED Board who formally approved funding on Wednesday 5th December 2018. The grant awarded is \$104,000.00.

You will shortly receive three copies of a contract signed by UNSW as NCCRED's funding administrator. This will need to be approved and executed by your institution prior to the release of any funds, with two wet-ink signed copies returned to NCCRED and one wet-ink copy retained by your institution. Any amendments or changes to the contract/terms and conditions requested by your institution can be negotiated through the NCCRED staff.

Please reply to this letter by email to Jemma Hallen (jemma.hallen@unsw.edu.au) indicating:

1. You are willing to be included on the NCCRED website as a recipient of an NCCRED grant
2. You are willing for your project synopsis to be included on the NCCRED website and promoted through their reports or newsletters

If you have any questions or require additional information please contact me.

Sincerely,

A handwritten signature in dark ink, appearing to be 'RA', is positioned above the typed name.
