Dear Nick

We are delighted to inform you your application for Mindgardens Neuroscience Network Clinical Translational Research Program has been successful. Congratulations! Mindgardens is an organisation that focuses on building clinical excellence, research capacity and education with the specific aim to improve patient outcomes. We are delighted to fund your clinically focused collaborative research that will help further our mission.

You will receive a total of \$150,000 for your research project for expenditure over a period of up to two years. Funding agreements and performance reporting requirements will be emailed to you by the end of August 2019. However, we would request that you begin the detailed planning to implement your research proposal.

We are planning a launch of the Mindgardens Neuroscience Network in September 2019 (date to be determined) and we hope you will and your team will be able to attend and briefly discuss your important research.

Yours sincerely,

Prof Helen Christensen AO
Interim Joint CEO

Prof Peter Schofield AO
Interim Joint CEO
